

HelixTM

CLEAN. DESIGN.
FREEDOM TO MOVE.

The Helix Series

THE FUTURE OF MODERN LAB & CAREGIVER SEATING

We set out on this journey to create a seating solution that would complement the elegant architecture and design of modern lab and healthcare facilities; to deliver a user experience on par with the amazing work happening in these spaces. Our vision was to redefine design and performance expectations, because we believe good design belongs everywhere. We set the bar high to transform Med-Tech seating entirely – and we think we might be on to something.

Meet Helix, the seating solution for modern healing and lab environments.

Freedom to Move.

A new level of organic, fluid motion for every user.

Helix embraces the human form effortlessly. Its patent pending Frameless Back™ cups the user, providing total support and unmatched freedom of motion. This unique comfort system adapts organically to a variety of users, requiring only a single adjustment handle to control height. Whether you twist, relax, focus or reach - Helix is there to support you.

Modern design.

Unique curves and color accents offer a fresh, modern aesthetic.

The organic form of Helix, designed entirely around natural human curves, provides a distinctive and purposeful aesthetic appropriate for healing and lab spaces. Fresh optional accent colors reflect an optimistic energy to help brighten environments.

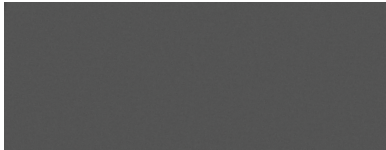

Clean.

Seamless polyurethane cushions resist contaminants and hold up to cleaning agents.

The seamless polyurethane comfort surfaces of Helix offer exceptional protection against contaminants. All surfaces are easily cleanable, and the cushions remain resilient and supple much longer than typical vinyl coverings. Helix was designed with lab grade hygiene in mind and complies with **BIFMA Healthcare Furniture Cleanability Guidelines HCF 8.1-2014**.

Available Configurations

Comfort Surface

i+™ Polyurethane

Proprietary i+™ Polyurethane is more plush than standard PU, resulting in an exceptional combination of comfort and durability.

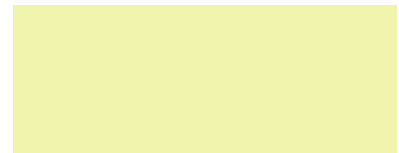

Upright Color

Aquamarine

Coral

Citrine

Stone

Slate
