

Technical Information for Autoclavable Mat – Part # 2038M1

The Autoclavable Mat provides comfort in sterile environments including operating rooms, pharmacies where medicines are mixed, laboratories, radiology rooms and HazMat areas. The SBR/Nitrile compound is resilient, and totally anti-microbial. Tested to withstand extensive sterilization in an autoclave, the mat's solid, non-porous surface can also be wiped clean. The "domed" surface design provides an ideal level of comfort, while the individual size fits flat into standard autoclaves for efficient, effective cleaning.

Technical Specifications:

Performance

Best	Y
Uses	Any application where the equipment and flooring must be sterilized
SKU Description	An ideal anti fatigue mat for areas that must be sterile
Autoclave	No deformations after 52 autoclave cycles – 120 degrees C @15 psi for 20 minutes
EA	Y
Durometer	50 to 55 per ASTM D2240
Tabor Abrasion	<1% lost @ 1,000 cycles per Fed. Std. 191
Flammability	"A" rating per MVSS 302
Thickness	1/2 inches
Warranty	1 years
Anti-Fatigue	
Value	3.5 out of 4

Wear Resistance

Value 4 out of 4

Slip Resistance

Value 4 out of 4
